SUPPLEMENTAL INFORMATION (Note 12)

DIADEM RESOURCES LTD.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FEBRUARY 28, 2005
(Unaudited)

1. GOING CONCERN

The consolidated financial statements are prepared in accordance with Canadian generally accepted accounting principles and on the assumption that Diadem Resources Ltd. (the "Company" or "Diadem") will be able to realize the carrying value of its assets and discharge its liabilities in the normal course of operations as a going concern.

There is uncertainty about the Company's ability to realize the carrying value of its assets and discharge its liabilities as they come due. The ability of the Company to continue as a going concern is dependent upon, among other things, being able to obtain additional financing and maintain positive cash flows from operations. During October and November 2004, the Company issued 34,133,331 common shares for gross cash proceeds aggregating \$2,068,000. During December, 2004, the Company issued 7,554,670 flow-through units for proceeds of \$1,133,200 consisting of one flow-through common share and one-half of one flow-through purchase warrant. Each whole warrant entitles the holder to purchase one flow-through common share at a price of \$0.20 per share for a period of nine months following closing of the private placement. There is no assurance the Company can continue to finance its operations through the capital markets.

For the nine months ended February 28, 2005, the Company recorded a loss of \$574,668 compared to net income of \$8,371 during the corresponding period of 2004 and had negative operating cash flow for the nine months ended February 28, 2005. At February 28, 2005, the Company has working capital of \$186,358 and an accumulated deficit of \$23,080,700.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These interim unaudited consolidated financial statements include all adjustments that are, in the opinion of management, necessary for fair presentation. The results of operations for the three and nine months ended February 28, 2005 are not necessarily indicative of the results expected for the full year. The Company is in the process of acquiring, exploring and developing its mineral interests in North America and is thus considered to be a development stage company.

These interim consolidated financial statements are prepared in accordance with Canadian generally accepted accounting principles for the preparation of interim financial information and follow the same accounting policies and methods set forth in the Company's audited consolidated financial statements as at and for the year ending May 31, 2004 and should be read in conjunction with those audited financial statements and notes thereto. These interim financial statements have not been reviewed by the Company's auditors.

3. LOAN RECEIVABLE

Effective March 15, 2005, Diadem restructured the terms of its option and joint venture agreement with Darnley Bay Resources Ltd. Consequently, Diadem and Darnley Bay Resources Ltd. ("Darnley Bay") renounced amounts owing to each other. (See Note 4(a)).

	<u>7,395,919</u>	<u>6,601,638</u>

(a) Franklin Diamond Project, Northwest Territories

Effective November 26, 2003, the Company entered into an agreement to form a joint venture ("Franklin Diamond Project") with DBR for diamond exploration in an area near Paulatuk in the Northwest Territories.

Under the joint venture, Diadem was to expend \$5 million on diamond exploration north of the 68th parallel during the period to December 31, 2006. When that level of expenditure is completed, Diadem will be entitled to select up to 2.5 million acres of the project area for further exploration, and Diadem will have earned an undivided 50% participating interest in the selected lands, with DBR holding the other 50%. The Inuvialuit Development Corporation has the right to back into the Franklin Diamond Project for a 10% working interest (with dilution to be shared equally by Diadem and DBR) when a decision is made to place a diamond mine into production and a positive feasibility study is completed.

Effective March 15, 2005, Diadem's earn-in requirement on the lands north of the 68th parallel has been reduced to approximately \$3,100,000 and the earn-in period has been extended to December 31, 2007. Darnley Bay has relinquished its participating interest in the joint venture lands south of the 68th parallel and transferred to Diadem 100% ownership in the permits and claims south of the 68th parallel.

In addition, the terms of the Diamond Cooperation Agreement between the Inuvialuit Regional Corporation and Diadem and Darnley Bay have been amended and the \$2,000,000 exploration expenditure requirement by June 30, 2005 has been extended to September 30, 2005. With respect to the aforementioned Diamond Cooperation Agreement approximately \$953,000 has been spent on lands north of the 68th parallel.

(b) Attawapiskat Diamond Project

During December 2004, the Company paid \$15,000 to enter into an option agreement to acquire a 51% interest in the entire Attawapiskat diamond property of Vault Minerals Inc. The property consists of 219 contiguous claims (3,403 claim units) covering over 53,000 hectares located in the James Bay Lowlands area of Northern Ontario. Through February 28, 2005, Diadem had incurred \$269,156 on exploration of this property.

DIADEM RESOURCES LTD.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FEBRUARY 28, 2005
(Unaudited)

During December 2004, the Company made the decision to proceed with phased exploration of the property. Diadem is required to expend at least \$500,000 by December 1, 2005 (of which \$300,000 was committed to be spent by April 1, 2005, which was done) on exploration and related costs with a further \$500,000 to be expended after that date and by December 1, 2006. If Diadem exercises its option on or before December 1, 2006, a 51/49 joint venture will be formed and Diadem will be the operator.

(c) Otish Mountains, Quebec

Effective August 27, 2003, the Company formed a wholly-owned subsidiary, Diadem Explorations Inc. ("DEI"), to implement agreements entered into by the Company on July 24, 2003 with several companies to acquire mining claims in the Otish Mountains region of Quebec. The acquisition of the claims was effected by issuing 384,248 Series B First Preference Shares of DEI having a value equal to the staking costs and cost of work carried out on the claims by the vendors.

The Series B First Preferred Shares are exchangeable, at any time after December 31, 2004 and up to December 31, 2006, into 3,256,338 Common Shares of the Company at the option of either the Company or the vendor based on a weighted average trading price of \$0.118 per share during the three month period ended December 31, 2004. During January and February 2005, three vendors exchanged 100,049 Series B First Preference Shares for 847,875 common shares of the Company.

(d) Leek Springs, California

The Company currently has a 43.8% vested interest in and held, until December 31, 2004, an option to acquire up to a 57.9% interest in 125 unpatented mining claims covering approximately 2,500 acres in the Leek Springs area of Eldorado County, California. This option was granted by the Silverstone Prospecting Syndicate ("SPS") which holds the remaining interest in the mining claims.

The Company is in discussions with SPS to restructure ownership of the project.

5. OTHER INVESTMENTS

At February 28, 2005, Diadem owned 4.0 units (May 31, 2004 - 4.0 units) representing 6.4% (May 31, 2004 - 6.4%) of the outstanding units of the Silverstone Prospecting Syndicate which are valued at \$20,000.

8. CONVERTIBLE DEBENTURE

The debenture was convertible in whole or in part at the option of the holder into common shares at any time on or before June 2, 2004 at a conversion price of \$0.10 per share. The debenture bore simple interest payable at the annual rate of 9.75%, payable monthly in cash or, at the option of the Company, in Common Shares valued at the greater of \$0.10 and the 10-trading day weighted average price of the common shares immediately prior to the payment date. The debenture matured on June 2, 2004 and the debenture holder made demand for payment.

Effective October 22, 2004, the debenture plus accrued interest was paid in full.

Included in interest expense is \$13,839 (2004-\$12,288) incurred in respect of the convertible debenture. On October 22, 2004, the Company paid the debenture holder \$61,314 to settle interest accrued on the debenture.

9. LONG-TERM DEBT

Long-term debt was incurred to fund a security deposit lodged in support of assessment work to be conducted on the Franklin Diamond Project in the Northwest Territories. The lender had a first security interest in all of the assets of Diadem including its joint venture with DBR. The loan bore simple interest, at 10% per annum, which was payable monthly in Diadem treasury common shares valued at \$0.10 per share. The loan which had no maturity date was repaid on October 22, 2004. During the nine month period ended February 28, 2005, 121,229 Common Shares with a fair value of \$12,123 were issued as payment of interest.

10. SHAREHOLDERS' EQUITY

(a) Capital Stock

Authorized capital stock of the Company consists of an unlimited number of special shares, redeemable and retractable at paid-up value and an unlimited number of common shares.

FEBRUARY 28, 2005
(Unaudited)

(d) Financial advisory services

Warrants to acquire 2,500,000 Common Shares, at a price of \$0.10 per share, for a period of two years from October 22, 2004 were issued as partial compensation for financial advisory services. In addition, 300,000 common shares were issued as partial compensation for financial advisory services.

(e) Flow-through Financing

During December 2004, the Company placed 7,554,670 Units at a price of \$0.15 per Unit for gross proceeds of \$1,133,200. Each Unit consisted of one flow-through common share and one-half of one flow-through common share purchase warrant. Each warrant entitles the holder to purchase one additional flow-through common share at a price of \$0.20 per share for a period of nine months after the closing of the private placement. A total of \$46,396 in cash commissions was paid and 309,307 non flow-through broker warrants were issued, exercisable for a period of nine months from the date of closing.

(f) Stock Option Plan

The Company has a stock option plan. At the annual general meeting of shareholders held November 30, 2004, the shareholders approved an increase in the aggregate number of common shares reserved for issuance under the stock option plan to 15,000,000 of which an aggregate of 9,600,000 are subject to options granted pursuant to the plan. The options are non-assignable and may be granted for a term not exceeding five years. The exercise price is fixed by the board of directors of the Company at the time of grant, subject to all applicable regulatory requirements.

On March 20, 2005, 50,000 options, exercisable at \$0.25 per share, expired without being exercised. On October 18, 2004, the board of directors granted options to purchase 1,750,000 common shares, exercisable at \$0.105 per share over five year terms. On November 1, 2004, the board of directors granted options to purchase 2,500,000 common shares at an exercise price of \$0.10 per share and cancelled options to acquire 2,060,000 common shares at a weighted average exercise price of \$0.12 per share.

Details of issued and outstanding stock options to acquire common shares are as follows:
