

## Parry Peninsula Magnetometer Survey - May 2004

A Rover ground magnetometer survey was completed by JVX Ltd. for Diadem in May 2004 over selected potential kimberlite targets on Parry Peninsula. Crew and gear was airlifted from Yellowknife to Paulatuk via First Air ATR Charter.

Setting up camp on Parry Peninsula. Jason Ruben with goose and Joe Desjarlais.

JVX ROVER snowmobile magnetometer system surveying one of the target areas.

Heading of to work.

Spring on Parry Peninsula.

Rob and Jason on a snow machine. Both have the tools of their trades: a 303 Enfield and a Gem19/GPS magnetometer.

A snow crevasse, a significant snowmobile hazard.

Jason Ruben.
